

Bachelor of Science/Bachelor of Data Science (Domestic students)

Program code	Entry requirements	Prerequisites
1601	14	English (4SA)
Available at Gold Coast Campus, Nathan Campus	Overall position (OP) 2019 68	Assumed knowledge Maths A or Maths B (4SA)
Duration 4 years full-time 8 years part-time	Rank 2019 (more) OR VET qualification Certificate III (Additional requirements)	
Credit points 320	Commencing in Trimester 1	
Indicative fee Find out more Calculate your fees		

Why choose this program?

This double degree combines the study of science with the specific skills of data analysis, modelling, interpretation and visualisation. You will gain an understanding of the use of data in your chosen major and graduate with in-depth technical knowledge and skills in data science. In your final year, you will complete a 'capstone' experience where you have the option to engage with university research, undertake an extended fieldwork program in your major or complete an industry placement.

Science majors include:

- Applied Mathematics (Gold Coast, Nathan)
- Biochemistry and Molecular Biology (Gold Coast, Nathan)
- Chemistry (Gold Coast, Nathan)
- Clinical Sciences (Nathan)
- Geography (Gold Coast, Nathan)
- Marine Biology (Gold Coast)
- Microbiology (Nathan)
- Physics (Gold Coast, Nathan)
- Wildlife Biology (Gold Coast, Nathan)

My attendance during the program

Attendance information

This program will be offered full-time and part-time on-campus at the Gold Coast and Nathan campuses.

Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

My career opportunities

My career opportunities

With combined qualifications in science and data science, you will find employment opportunities across a range of industries

where you will develop data driven solutions for real-world issues in your chosen major.

What are the fees?

Commonwealth supported students

- The fee is indicative of an annual full-time load (80 credit points) in a program categorized to one of the Australian Government's three broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets **student contribution amounts** on an annual basis.
- [Find out more...](#)

Fee-paying undergraduate (domestic) students

These fees are only applicable to domestic students who are not Commonwealth supported including:

- Full-fee paying domestic students who commenced their program prior to 2009.
- International students who have been approved to pay domestic tuition fees after obtaining Australian or New Zealand citizenship or permanent residency or a permanent humanitarian visa and who have not obtained a Commonwealth supported place.

Tuition fees

- A fee-paying undergraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee is charged according to the approved program fee for the trimester in which the student is enrolled.
