## My attendance during the program

### Attendance information

This program is offered full-time on-campus and in-person mode at the Gold Coast campus.

As a full-time student you will generally attend 22-24 hours of scheduled classes per week throughout the trimester. Classes may be scheduled during the day and evening throughout the week.

### Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

### Work-integrated learning

Work-integrated learning activities (professional placements) integrate theoretical learning with its application in the workplace. The inclusion of work-integrated learning activities in the degree program demonstrates Griffith's commitment to preparing its graduates for success in their working life.

In Year 3, you are required to undertake unpaid placements which require full-time attendance at a pharmaceutical workplace on a few occasions. Some placements may be outside the Gold Coast area. Opportunities for rural and international placements also exist.

## My career opportunities

### My career opportunities

The program ensures that graduates are ethical and innovative thinkers, effective communicators, problem solvers, change facilitators and leaders.

You will be prepared for a career in community and hospital pharmacy, and medication management. You will also be able to enter careers in the pharmaceutical, biotechnology, nutraceutical and related industries in areas including management, sales, marketing, business development, and local and national government agencies related to medicine use and regulation.
