Why choose this program?

This program is scheduled to commence in 2020.

Learn how to design and deliver hydrological catchment analysis with the Graduate Certificate in Catchment Hydrology.

In this degree you will develop a critical and applied understanding of catchment hydrological, ecological, and morphological processes their determinants, and inter-relationships across a range of scales.

You'll also gain the ability to quantitatively and critically analyse, model, forecast and evaluate the consequences of changes in these processes using a range of leading data management, analysis, modelling and visualisation techniques and software packages. Learning from a range of expert lecturers and experienced industry speakers you'll have the opportunity to study online or on-campus and participate in practical workshops and field trips, as well as benefit from individual academic and career mentoring meetings.

Successful completion of the Graduate Certificate in Catchment Hydrology also provides a pathway into the Master of Catchment Science, for those who don't meet the entry requirements of the Master degree.

Entry into the Graduate Certificate in Catchment Hydrology can be based on professional work experience or academic qualifications.

This degree is hosted by the International Water Centre and developed and delivered in collaboration with Griffith's Australian Rivers Institute (ARI) and the School of Engineering and Built Environment, drawing on ARI's research strengths in catchment process and catchment hydrology.

Pathways to further study

Successful completion of the Graduate Certificate in Catchment Hydrology provides a pathway into the [Master of Catchment Science \(5731\)](#).

What are the fees?

Fee-paying postgraduate (domestic) students

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points.

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- A fee-paying postgraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Graduate Certificate in Catchment Hydrology (3360)

Year of study	Fee category/Band	Fee per CP	Tuition fee 40cp
2020	Fee Band 28.0	\$350.00	\$14,000.00
