Why choose this program?

The Master of Integrated Water Management creates water leaders by drawing on international teaching and research from many fields to provide a trans-disciplinary, whole-of-water-cycle approach to water management.

The program aims to build the capacity of future leaders in water management, with an emphasis on professionals working in WASH and development, urban water management, across water, land and people and in water finance for the achievement of sustainable development goals. The program equips students with practical tools and skills for developing and managing the adoption of innovative solutions to local, regional, national and international water management issues. Students will develop the strategic, managerial and technical skills they need to advance in the water sector.

The program is managed and led by the [International WaterCentre \(IWC\)](#). The IWC is a key capacity building organisation in the global water sector and dedicated to providing education and training to promote whole-of-water cycle approaches to integrated water management around the world.

My attendance during the program

Attendance information

This Masters program will be offered in full-time (on-campus) and part-time (blended) mode.

What are the fees?

Fee-paying postgraduate (domestic) students

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points.

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- A fee-paying postgraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Master of Integrated Water Management (5722)
